Crazy Love
Van Morrison

D  F#m              G                D                          D            F#m              G       D
I can hear her heart-beat, from a thousand miles . . And the heavens o-pen, every time she smiles . .

D  F#m              G                D                          D            F#m              G       D
And when I come to her, that's where I be-long . . And I'm running to her, . . like a river song . .

Chorus:
D           F#m              G                D                      D              F#m               G       D
She give me love, love, love, love cra-zy love . She give me love, love, love, love cra-zy love .

D           F#m              G                D                      D              F#m               G       D
She got a fine sense of humor, when I'm feelin' low down . And when I come to her, when the sun goes down .

D  F#m              G                D                          D            F#m              G       D
Take a-way my trouble, take a-way my grief . Take a-way my heartache, in the night like a thief . .

Chorus:
D           F#m              G                D                      D            F#m              G       D
She give me love, love, love, love cra-zy love . She give me love, love, love, love cra-zy love .

Bridge:
A                  G                      D                                 A           G                      D
Yeah, 'n' I need her in the daytime (I need her) . . . And I need her in the night (I need her) . .

A                  G                      D                                 A           G                      D
And I wanna throw my arms around her (I need her) . . And kiss and hug her, kiss and hug her tight . .

(Tacit)       D        F#m                G          D                                D             F#m
Yeah, when I'm re-turning, from so far a-way . She give me some good lovin', brighten up my day . .

F#m                G          D                                D             F#m
And it makes me righteous, and it makes me whole . And it makes me mellow, down into my soul . .

Chorus:
D  A        Bm              A              G  .  A
She give me love, love, love, love cra-zy love . . She give me love, love, love, love cra-zy love .

D  A        Bm              A              G  .  D
(Slow----------------)
She give me love, love, love, love cra-zy--- love . . She give me love, love, love, love cra-zy--- love .
