(You Make Me) Smile (Key of C)  
by Uncle Kracker

C               .                       Dm
You’re better than the best
F               .                       G
I’m lucky just to linger in your light.
C               .                       Dm
Cooler than the flip side of my pillow, that’s right.
F               .                       G
Completely unaware
Dm               .                       F
nothing can compare to where you send me
C               .                       G
Lets me know that it’s o-kay, yeah, it’s o-kay.
G               .                       F
And the moments where my good times start to fade
C               .                       G

Chorus: You make me smile like the sun, fall out of bed, singing like a bird, dizzy in my head,
C               .                       G
Spin like a record, crazy on a Sunday ni-ight
F               .                       G
You make me dance like a fool, for-get how to breathe, shine like gold, buzz like a bee
C               .                       G
Just the thought of you can drive me wi-i-ild, Ohh, you make me smile.
